Jamie Allen for "9 Hysterical Media Truths You'll Never Believe!"

At 10:19 A.M. Eastern Time on Friday, December 20th, 2013, #JustineSacco, a public relations #pr #marketing executive from #IAC #NYC was at #HeathrowAirport #London #England . She opened a #twitter application on her #mobile #smartphone while waiting to board a flight to #South #Africa #SouthAfrica . Shortly before the #shourflight from #London to #CapeTown #Justine tweeted:

"Going to Africa. Hope I don't get AIDS. Just kidding. I'm white."

During the #longflight from #London to #CapeTown , #Justine would be disconnected from #digital and #cellular #data #networks for a full half-day. #12hours of #networktime , during which many, many people reacted very negatively to the #Africa #AIDS #kidding #white message. Knowing that this #whitstorm was fomenting while #Justine was in the #air , the #Internet began to lap feverishly at the #condensate forming on its #glassy casements, the #realtime tensions between #online #realities and an #AwayFromTheKeyboard #AFTK transcontinental journey so #tantalising that it crystalised and propagated a #hashtag : #HasJustineLandedYet . One zealous #CapeTown twitter user even drove out to the airport #CPT #FACT for the arrival of #JustineSacco 's airplane, posting a blurred photo of a sunglass-wearing blond woman frantically dealing with incoming messages and phone calls from friends, acquaintances. Her employer, #IAC #InterActiveCorp , owner of #CollegeHumor #DailyBurn #Vimeo #TheDailyBeast #Chemistry.com #Match.com #PeopleMedia #OkCupid and #Tinder , fired #Justine from her #job, #throwingHerUnderTheBus before she even set her feet back on the earth: "Unfortunately, the employee in question is unreachable on an international flight, but this is a very serious matter and we are taking appropriate action."

The #contextless #content of the undoubtedly #offensive initial twitter salvo notwithstanding, the treatment #Justine received in the twelve hours subsequent to her #tweet was a flourishing of #attentions easily compared to a #witchhunt , or a #publicshaming . An #opening #moment of a #pattern #cycle #sequence that #spirals in the #ether of #online #discourse and then #strikes the #ground of #reallife #reallives with #integrative #force . Provoking here the #condemnation #degradation #contempt #abuse #humiliation of a #woman , and #others. In early #May #2018 , 84-year-old filmaker #RomanPolanski , who is wanted in the U.S. for the 1977 rape of Samantha Geimer, dismissed the #MeToo movement as #masshysteria and #hypocrisy .

If the #subaltern can never #speak , he or she is #obliged #forced #tricked into #tweeting , a #hashtag #response #speechact #tweetact . The #otherworldly #spellbinding #power , #against and of the #real rests in #theword , the #hashtag is #enchanted #disenchanted #sorcery , an #occult #incantation that can be #ambiguously turned on or toward a #person or #public . #Hysteric #hashtags #harbouring #unhesitating #hate, or #hospice . #OnlineShaming #doxing #revengeporn #vigilantism #flagging #trolling #hounding #awareness #truttopower #identification #sympathy #empathy #solidarity #allyship #friendship #communality #activism #resist #notonmywatch . #Links between #digital #public #hysteria #settling #out , #condensing , into a #hashtag , becoming a #provoking #fulcrum .

These days, adding a "#" to a word plants a seed of contagion. #Compulsive #traces of #addiction and #powerful #channels of #compassion and #defiance #open and #close and #reopen again. #BlackLivesMatter #IStandWithAhmed #YesAllWomen #ShoutYourAbortion #Kony2012 #WhyIStayed #HimToo #BringBackOurGirls #AmINext #PrayforParis #NotOneMore #NODAPL #Oromoprotests #Sosblakaustralia #IdleNoMore #UmbrellaRevolution #icebucketchallenge #Hallyu .

The hashes of the #hashtag are diagrammatic on the one hand of a filter, for the bubbles we occupy online, and on the other a crosslinking of words and deeds, online and off, heavens and earth. #Words as pointers, inverting categories, flipping indexes and subsuming both signifier and signified. In certain instances the result is remedial collective action, in others in compulsion or agitation. These political obligations and paranoid hysterias are impelled by visibility, "likes" and "shares", but also authentic intention and sincere, desirous change. "#" is also a seed, a nucleator, a trigger, and a technical operator, that orients ambiguous individual reflection and mass reactivity. #thotaudit , #pizzaGate , #kony2012 colonize our social media streams (re)producing feedback and (re)posts. To much different ends, #metoo or #occupy move people to express feelings, change minds or to take other kinds of public action.

hysteria – or: 9 Hysterical Media Truths You'll Never Believe! was a workshop that took place at transmediale 2019 in Berlin at the Haus der Kulturen der Welt. A mixed group of participants, we discussed how various conversations and interactions, mediated through the hashtag, move people worldwide toward the expression of feelings or the taking of action — arising and evolving as subjects, topics, challenges, and collective engagements. Further, at the session, we focused on cultural histories of #hysteria, and the broader impact of the use of #hashtags on #economy, #infrastructures and #environments, as well as on the #experienceofeverydaylife.

Controlled information pollution through the micro-targeting of advertising, filter bubbles, attracting clickbaits and instagram-influencers over the landscape of social media platforms affect, synthetically stress, and enable power over irrational user behaviour. Hashtags are the neurotransmitters of hysterical communications in the nervous system of online platforms, delivery services, logistic centers and real time cultural production
